COLUMBIA LETTER.

Columbia, Feb. 13.—There is only one more week of legislative work before the present general assembly. The appropriation bill is now under discussion in the house and has not yet reached the Senate. It will take several days to dispose of it.

The proposed amendment to the constitution for biennial sessions was killed in the Senate yesterday though a majority of the Senators voted for it, but it requires a two-thirds vote. I think it is just as well that the bill was killed. At one time I was disposed to think biennial sessions would be better for the State and would save money but the more I have thought of it the more I have been convinced that there was very little in the proposition.

The Newberry delegation held a meeting yesterday afternoon to discuss local matters and make recommendations. The present board of control for the county was recommended for reappointment as follows: Jacob Seum, J. R. Scurry and J. W. P. Harmon. The following were recommended for appointment as supervisors of registration: T. E. Epting, T. J. Wilson and J. W. D. Johnson. This is the same board with the exception of Mr. Johnson who takes the place of Mr. W. G. Peterson.

The levy for ordinary county purposes was fixed at 25 mills; the same as it is now. This seems to be about \$8,000 and an additional levy of a debt of one fourth mill was made to provide for this, so that it is a levy for an ordinary county of 22 mills.

In regard to Mr. Domingo's bill to amend the charter of the Newberry Graded School it is proper to say that there were two reasons for constituting the board of trustees as it is under the charter. One was to give a member to each of the six churches and have one at large, in addition to the election of one from each of the four wards of the town, making 11 eleven trustees. The purpose in making the board still perpetuating was to guard against letting the management of the school pass out of the hands of the white people and those who paid the taxes. This latter reason no longer exists since the adoption of the constitution of 1895 and did not in practical reality when the school was founded. I think, however, Mr. Domingo's bill should be amended so as to provide for seven trustees, one from each ward, if so desired, and two from the town at large. It has passed the house and is now in the senate. It is practically in the hands of Senator Mower. When in Newberry the other day I heard a good many patrons of the school express themselves in favor of the bill.

There has been some discussion in the members of the Legislature on this question. Yesterday morning Hon. B. H. Theus, a member from Hampton County, died at his rooms at the Beauwell Hotel after a brief illness with pneumonia. The house and state adjourned yesterday afternoon out of respect to his memory, and a special committee from the house was appointed as an escort to convey the remains to his home in Hampton. Mr. Theus had been a member for two terms and while he did not take much he was a good member and had the confidence and respect of all his associates.

The Legislature up to this time has ratified twenty-one Acts and Joint Resolutions. They have all been approved by the governor. They were approved only yesterday, except the Jury Law and the Code. These titles are copied from the bills themselves.

JOHN BISHOP THOMAS.

Formerly a boy about 14 years old, the son of a colored woman, he was born at New York, Feb. 24, 1860. He got a job as a boy in a factory, and worked in a cotton mill in New England, and then in a tobacco factory in New York, and finally in a cigar factory in New York.

He was a boy of a strong physique, and was a good worker, but he was very nervous and irritable. As a wife and mother, she was a very strict housewife and when she was away, he was very bad.

DIED IN ARKANSAS.

Mrs. Sarah E. Burton and Son Died the Same Day. Mrs. Burton was a Native of Newberry County.

The following sad account of the death of a mother and her son which occurred in Arkadelphia, Arkansas, on the 3d inst., is taken from The Slitting Herald, of the 6th instant. Mrs. Burton was native of this county and the family has many friends and relatives who sympathize with them in their troubles.

"Death the relentless destroyer of homes, invaded the household of Mr. Ray Burton and took his beloved wife and son on the same day, the Sabbath, February 2nd, 1902. Their sickness began with the grippe, but soon developed into pneumonia, which in a few days proved fatal. Mrs. Burton dying at six o'clock p. m., and her son Flave, at one p. m. Mrs. Burton's maiden name was Stuart, the daughter of William and Elizabeth Stuart, of Newberry, S. C. She was born on the 28th day of August, 1843, and was married to Mr. Ray Burton on August 23d, 1863, and moved from South Carolina to Arkansas in 1866, and settled in Clark County. She was the mother of nine children, five boys and four girls, all of whom are living, except Flave, who died the same day as his mother. Mrs. Burton made a profession of faith in Christ, as her Saviour, in childhood, and united with the M. E. Church South, has ever since been an earnest and active worker in her Master's cause. Six of her sons were buried at various times during the week.

That Cough Hangs On

You have used all sorts of cough remedies but it does not yield; it is too deep seated. It may wear itself out in time, but it is more liable to produce la grippe, pneumonia or a serious throat affection. You need something that will give you strength and build up the body.

STATE OF SOUTH CAROLINA—COUNTY OF NEWBERRY—IN PROBATE COURT.

W. H. BEARS, Esq., Probate Judge.

BEAR, Mary J. Over and Hugh K. Boyd, minors, sue to me to grant them letters of administration of the estate of late wife of F. W. J. deceased.

One year therefore to cite and admonish, and sing at the kindred and executors of the said F. W. J. Boyd, deceased, that they be and appear before me in Court of Probate to be held at Newberry County House, S. C. on the 1st day of March next, after publication thereof, at 11 o'clock in the forenoon, to show cause, if any they have, why the said Administration should not be granted.

A healthy, active circulation means good digestion and strong, healthy nerves.

As a blood purifier and tonic S. S. S. has no equal. It is the safest and best remedy for old people and children because it contains no minerals, but is made exclusively of roots and herbs.

No other remedy so thoroughly and effectually cures the blood of impurities. At the same time it builds up the weak and debilitated, and revives the entire system. It cures permanently all manner of blood and skin troubles.

Mr. E. E. Kelly, of Urbana, O., writes:

"I had Eczema on my hands and face for two years. It would break out in little patches, become inflamed, and drop off, leaving the skin red and raw. The doctors did me no good. I used S. S. S. capsules and salves without benefit. S. S. S. cure is perfect. The skin is as clear and smooth as any one's."

Mrs. Henry Steigfied, of Cape May, N. J., says that twenty-one bottles of S. S. S. cured her of Cancer of the breast. Doctors and friends thought her case hopeless.

Richard T. Gardner, Florence, S. C., has no equal. It is the safest and best remedy for old people and children because it contains no minerals, but is made exclusively of roots and herbs.

Richard T. Gardner, Florence, S. C.,

for good and sufficient Reasons.

There are four good and sufficient

reasons why you should use "Clifton"

1. Because it is the best patent flour

in the market, and makes the whitest

and lightest biscuit and rolls and most delicious cake and pastry.

2. Because it is absolutely pure,

being guaranteed by the Anti-Adulteration League, the executive committee of which will pay any one who discov-

ers any adulteration. In a reward of \$1,000.

3. Because it is made of the best se-

lected wheat grown on Kentucky soil

and is milled as much with regard to

the nutritive value of the flour as its color and rising qualities.

4. Because it is the only flour man-

ufactured south of the Ohio river that

is guaranteed by and bears the Anti-

Adulteration trade mark, thus afford-

ing the consumer absolute immunity

from the poisonous mineral that is being used to adulterate flour.
